MEADOWS™**  
Professional Quality Equine Supplements

MAKING LIFE  
BETTER

*Choice of Champions*

## The Science Behind *Grand Meadows*

At Grand Meadows, we have a passion that translates to everything we do. The central core of that passion is our commitment to provide high quality, science based animal health supplements, at a price you can afford to improve in the health, performance and longevity of your horses and pets.

In an industry that sometimes falls short in standards and ethics, we have made these issues the pillars of our approach to our business. That is why we have gained the respect and trust of professional riders, trainers, veterinarians, and animal owners around the globe.

Our commitment to you is to continue to produce the finest quality products that are sound and affordable, to be a resource for consumers, confused or concerned about the myriad of product choices available, and to always focus on the welfare of your horse and pets above all other issues.

*Optimum Health, Performance and Longevity.*

***“Grand Flex – a proven formula,  
has been our top recommendation”***

Horse Journal

### Grand Meadows™

One of the First to Earn an “A” Rating from NASC™

Since 1985, Grand Meadows Nutritional Products has led the competitive U.S. industry with high-quality, cost-effective equine and pet supplements. Confirming this in September 2004, the NASC™ (National Animal Supplement Council) recognized Grand Meadows for manufacturing supplements with the highest standards of quality, accurate label claims, and excellence in the industry by being one of the first to earn the NASC™ Quality Seal.

Grand Meadows continues to develop new advanced formulas containing premium grade ingredients, plus patented and select compounds.

Comprehensive quality control inspections on each and every bucket ensures our commitment to producing the finest quality products available in the marketplace.

*“From the very beginning, Grand Meadows aspired to be a company that had a passion for improving the health and wellness of horses”*

“Today, almost thirty years later, one of the most gratifying aspects of this journey is meeting people from all over the world, in every discipline, who have experienced a change in the health and mobility of their own horse after using Grand Meadows. They tell me how much better their riding experience has become and share some remarkable stories of success. Thank you for letting Grand Meadows play a positive role in your equine lifestyle and your horse’s health and well being.”

**Angela Slater**

Founder, Grand Meadows

# The Choice of Champions®

Top professional riders all over the world use Grand Meadows products along with thousands of other horseowners – the one consistent response we always get – IT WORKS! Our team of scientists and nutritionists constantly strive to produce the highest quality supplements available today.

*Quality and Excellence you can Trust*

## Order Online...It's Easy!

Simply visit [www.grandmeadows.com](http://www.grandmeadows.com) and view information about our products, read testimonials from leading riders and equine experts, compare nutritional ingredients between Grand Meadows and competitor's products and locate an authorized retailer near you or place an order online and have it shipped directly to your front door.

**Smoky Pritchett**  
NRCHA Hall of Fame

"I am most impressed with how quickly the young horses have bloomed, they have put on more muscle and their coat has a metallic sheen to it, not to mention that our vet bills have gone down! Great products and my horses are all staying on it."

**Allison Kroff**

World Championship Grand Prix

"I have been using Grand Meadows for the last two years on both my Grand Prix horses. Since I have started I have seen positive changes in both my horses. They retain their stamina and soundness throughout all their competition weeks. I will always use Grand Meadows products for all my horses."

**William Fox Pitt**

2010 WEG Silver Medalist  
FEI Ranking World #1

"We have confidence in Grand Meadows to provide supplements that have helped all our horses deal so successfully with the rigors of eventing."

**Heather Blitz**

International Grand Prix  
Competitor

"I have been using Grand Meadows products for my horses since my Grand Prix tour in Europe. I trust their products completely to give my horses the support they need to perform and win at their elite level competition. I have been using Grand Meadows products for my horses since my Grand Prix tour in Europe. I trust their products completely to give my horses the support they need to perform and win at their elite level competition."

Many leading veterinarians trust and recommend Grand Meadows products to their clients. One of the best environments for the horse to get vitamins and minerals exists when a horse is free to roam over large areas continuously eating a variety of plant species grown on a variety of soil conditions.

Supplements help provide these valuable ingredients when free range conditions do not exist.

## Grand Flex™

Are you worried about maintaining the soundness of your horse?

Joint problems are virtually endemic with performance or aging horses. Grand Flex was designed to provide a powerful tool to help keep your horse fit and sound. You owe your horse the extra support that Grand Flex can provide if you want to keep him moving at his best.

Grand Flex has been repeatedly recognized in Horse Journal as the best glucosamine product on the market. By combining glucosamine with important co-factors Grand Flex will not only support just the joints, it will also help to maintain and support associated tendons and ligaments, providing a much more comprehensive solution.

Top professional riders all over the world use Grand Flex along with thousands of other horseowners – the one consistent response we always get – IT WORKS!

### Helps:

- Helps support against Joint Problems
- Better Joint Health
- Manage Joint Stress

## Grand Complete™

The First All-In-One Inclusive Supplement for Horses

Grand Complete™ combines the most comprehensive ingredients from our most popular products, Grand Flex, Grand Hoof Pellets, Grand Coat, and Grand Vite, into one unique formula targeting all the key areas for overall wellness of your horse. By providing this powerful, balanced formula daily, you simplify your program to provide support and help maintain the joints, hooves, coat, immune system, and digestive tract with the benefits of its "all-in-one" formula.

Consolidating ingredients into one comprehensive product reduces your costs, and provides your horse with an "all-in-one" support program. Grand Complete is even safe to use with reduced levels of other Grand Meadows products to further enhance your horse care program.

- Provide a powerful, balanced formula
- Simplify your supplement program
- Maintain joints, hooves, coat, immune, and digestive system

"Tipper has been on Grand Complete & the Grand Calm for over two 2 years. I tried other products and just didn't see any change or improvement in performance. She has gotten stronger & faster at each race. I always recommend them to my clients and fellow competitors - they really do work!"

## Grand HA™

Nourishes, Lubricates and Supports the Joint

Grand H.A.™ provides 300 mg of Hyaluronic Acid per serving, the highest level available. Hyaluronic Acid (HA) is the chief component of synovial fluid that cushions and lubricates the joints. It plays an important role in increasing the viscosity and reducing friction between articular surfaces.

Grand H.A. contains Kolla II®, a new US patented "Super Ingredient" clinically proven for rapid, absorption and promotion of joint health. Kolla II® provides a matrix of HA molecules at 1/90th of their original size, Type II Collagen, and Depolymerized Chondroitin Sulfate. The combination of these three ingredients match the natural structure found in articular cartilage. Grand H.A. with Type II Collagen represents a new dimension in joint technology - a more scientific approach for ultimate joint care.

### Product Facts

Per 2oz. (56.76 g) unit	
Hyaluronic Acid	300 mg
Type II Collagen	1,000 mg
Depolymerized Chondroitin Sulfate	350 mg

- Intense Training • High Level Competition • Specifically formulated to support joint function • Can be combined with Grand Flex or MEGA Grand Flex to maximize results

"For over ten years I have fed Grand Meadows products. I get consistent results that I have always been pleased with. I am a big fan of the HA and Collagen Type II in their jointcare line and Grand Calm helps my horses stay focused and attentive. My horses compete and perform in many competitions and exhibitions all over the country. Grand Meadows ensures my horses maintain soundness, a high level of fitness and strength for the stresses associated with training and competing."

## HA Synergy™

Maximum Support for Joint Health

Grand H.A. Synergy™ is a comprehensive matrix of powerful ingredients making it the top of our joint formula line. Unmatched by other HA products that merely offer one-dimensional support. US Patented Kolla II® is a highly bioavailable combination of components: Hyaluronic Acid (HA), depolymerized Chondroitin Sulfate, and Type II Collagen, which represents 90% of the collagen present in articular cartilage. Grand H.A. Synergy combines these powerful ingredients with Glucosamine, MSM, and other key co-factors that match the crucial requirements for healthy cartilage, joint fluids, and supporting connective tissue. All these ingredients work synergistically to promote healthy joint function and provide support and flexibility.

### Hyaluronic Acid for Joints:

- Maximum support for joint health
- Supports joint mobility and helps to reduce stiffness
- Helps maintain cartilage and connective tissues
- Optimal molecular weight for proven absorption

### Product Facts

Per 2oz. (56.76 g) serving	
Hyaluronic Acid	200 mg
Type II Collagen	735 mg
Depolymerized Chondroitin Sulfate	250 mg
MSM	10,000 mg

"I started using Grand HA Synergy while competing in Europe over ten years ago. Confidently, I continued to use Grand Meadows products when I returned to the US to keep all my horses thriving and sound. Paragon is exceptionally sound and healthy and continues to excel in his performance. I am often told that all my horses look so well developed and fit - Grand Meadows gives my horses that extra edge and it shows."

## MEGA Grand Flex™

Helps protect against joint problems

MEGA Grand Flex™ is ideal for senior horses, competition horses, and all horses in various disciplines. We recommend using MEGA Grand Flex when a more advanced approach is needed. MEGA Grand Flex contains all the important co-factors contained in original Grand Flex, plus **12,500 mg** of Glucosamine and **10,000 mg** of MSM per measure to promote healthy joint function. This product provides higher levels of Glucosamine and MSM. Optimum joint protection usually takes between two to three months. For a more powerful approach, Grand H.A. can be added, or you can switch to Grand H.A. Synergy. When results have been achieved, it may not be necessary to use MEGA Grand Flex on a long-term basis; we recommend following with our original Grand Flex, Grand Complete, or Grand H.A. for long-term maintenance and joint support.

"We require a lot from our horses. We like to use MEGA Grand Flex on some horses that need the extra joint help. All our show horses are on Grand Meadows. We like the results - they are fit, sound and so well turned out!"

## Senior Flex™

Promotes healthy joint function and supports flexibility

Injuries can happen and as horses age a breakdown can occur in the function of the joint, muscle or tendons requiring a more aggressive joint supplement to help him recover, be comfortable, stay active, fit and sound... for the long term.

### Proven joint support ingredients:

Grand Flex Senior contains all the important co-factors that have made the original Grand Flex so successful. Plus high levels of Glucosamine, Hyaluronic Acid, Collagen Type II, Depolymerized Chondroitin Sulfate to promote healthy joint function and support flexibility.

Grand Flex Senior provides a powerful combination of MSM, Devil's Claw, Boswellia and Yucca to address discomfort associated with normal exercise and overuse.

### Optimal Digestion and Improved Immune Function

The final element that makes Grand Flex Senior truly unique is the inclusion of Diamond V™ Prebiotic Yeast that will maximize bacterial digestion, increase immune function.

- **Tendon-Ligament Injuries**
- **Helps support structural integrity of joints and connective tissue**
- **Prebiotic**

**Susan Peacock**  
USDF Certified Grand Prix Dressage Trainer, Clinician and Writer

"At age 31, Cassius would not have been able to still compete at Prix St. George without Grand Flex Senior. Grand Flex products have really worked to extend the useful years of all my horses' lives. I have been a confident customer of Grand Meadows for 20 years!"

## Grand Hoof™

### Grand Hoof Pellets + MSM™

Problems with your horse's hooves?

Are you tired of losing shoes, dealing with crumbly hoof walls, quartercracks, tender and sore hooves? Building a healthy hoof is crucial to keeping your horse sound and performing at his best.

Grand Hoof's original formula, developed over 20 years ago, and Grand Hoof Pellets + MSM are both proven formulas to grow and maintain strong, tough, healthy hooves. Their potent formulas will give you the best and fastest results – results you and your farrier have been looking for.

Proven studies and field testing on horses with hoof problems have shown noticeable improvement when supplemented with Biotin and Methionine. First you'll see a new healthier band of hoof growth directly below the coronary band. Remember – it takes 3-6 months for solid improvement and almost a year for the hoof to completely grow out.

- **Biotin**, stimulates keratin production in the hoof's laminae and coronary band to support the hoof wall, frog and white line, minimizing weak walls and cracks and protecting the exterior hoof wall from moisture damage.

- **MSM & Methionine** increases delivery of hoof building nutrients and supports the connective tissues inside the hoof wall. MSM and Methionine work as vasodilators, relaxing blood vessels vital to circulating nutrient rich blood into the small capillaries inside the hoof.

- **Zinc, Copper, Lysine and B-6** – are important for protein and enzyme synthesis for proper hoof repair, and growth.

- **Diamond V™ Prebiotic Fermented Yeast** supports feed digestibility and utilization.

"Living in California with its dry climate makes the horses feet crack and dry out more. For many years now I have Grand Hoof on the horses that have hoof wall problems such as cracking and slow growth rate and on my therapeutic cases were I need to speed growth up . The walls become stronger and hold shoes on better. Grand Hoof is the best specific hoof supplement I've ever used and always amazed by the results we see in the for improved hoof condition and healthy new ring of growth."

## Don't be fooled that more is better.

Many companies add higher levels of biotin, but use a diluted 1% trituated form. We tested a number of popular brands with high Biotin claims and found actual ingredients didn't match label claims. **Grand Hoof formulas use a concentrated pure grade of stabilized Biotin and the proper ratio of hoof-building nutrients. Results from research prove just 15-20 mg of biotin works.**

## Grand Digest™

Healthy digestion fuels your horse's ultimate performance....

keeping your horse's digestive and immune system in a healthy balance can be a challenge. In their natural environment horses are continuously grazing on forage grown on a variety of soil conditions. Pasture grazing creates continual salivation making it easy and efficient for your horse to break down and absorb multiple nutrients that stimulates every condition of your horse.

It is rare to see a horse in pasture colic, have gastric ulcers or suffer from diarrhea or poor immune function.

Most horses today, especially high performance, competitive horses are confined to a small stall or turnouts, fed a limited variety of concentrated, high starch commercial feeds usually, just twice a day. This necessary, but not so natural feeding regimen combined with the stresses of training, trailering and competitions certainly can cause your horse's digestive and immune system to fall out of balance increasing the risk of digestive problems from diarrhea, gastric ulcers to colic.

### Research shows that 60% of performance horses suffer from gastric ulcers.

Ulcers can adversely affect your horse's performance, attitude, body condition and overall well-being. Limited access to pasture, heavy training and high stress can all contribute to this condition.

### All horses can benefit from digestive support

While ulcers can only be treated by prescription medication, you may be able to reduce the risk and support your horse's a healthy stomach through detox, enhanced nutrient absorption and improved digestion Grand Digest provides outstanding gastric and digestive support, especially those under stress from travelling or competition. The comprehensive formula helps to safeguard the stomach to create a healing environment and maintain overall gastric and digestive health.

- Detox
- Enhance Absorption
- Improve Digestion

## Grand Coat™

Give your horse the "wow" factor....

Designed to deliver breathtaking colors, glossy coats and a lustrous mane and tail. Grand Coat's unique quadruple action formula works quickly and provides dramatic results providing a rich source of Omega Fatty Acids, key minerals, and amino acids. The ingredient that really sets Grand Coat apart from other products is Lecithin, which supplies phospholipids, a vital requirement for helping enhance healthy skin and a deeper improved coat color.

**Enhances ALL coat colors – from head to tail.**  
**Promotes breathtaking richness and color.**

"Grand Coat has made such a difference. Arjen, my Friesian, had a dull, brown coat when he first arrived from Holland. Within a month of feeding Grand Coat I could not believe the color I was seeing as well as a much improved, beautiful healthy, shiny coat. Within a few months his mane and tail both thickened up nicely.

It is a very good product and reasonably priced - it does work!"

"I have two very nervous young horses that I drive in a pair. Grand Digest helped eliminate loose stools completely and they have gained and maintained ideal weight. I've eliminated expensive ulcer medications and their digestive systems are normal again. I can't say enough about how much Grand Digest has improved their overall condition. I had tried probiotics and they were not successful at all."

**Diane Kastama**

FEI World Carriage Driving Champion

“The best environment for the horse to get required vitamins and minerals exists when a horse is free to roam over large areas continuously eating a variety of plant species grown on a variety of soil conditions – The worst environment exists when a horse is confined to a small stall, is stressed by performance, and fed a limited variety of feeds only twice daily – especially when the feeds are grown in soil that is farmed intensely and stored for an extended period of time.”

Dr. Harold Kronfeld, DVM

“Grand Digest provides outstanding gastric and digestive support, especially those under stress from travelling or competition.”

**Max Macman**  
 USDF Gold Medal 2013

## Grand Vite™

Better Nutrition, Better performance....

The reasons to feed Grand Vite are varied:

- ‘Hard Keepers’ that do not absorb the nutrients they need
- Older, senior horses not able to digest nutrients efficiently
- Horses recovering from illness
- Pregnant – Lactating – Breeding Mares and Stallions
- High Performance horses to maximize overall wellness and long-term performance

Grand Vite is a time-tested formula developed in 1985, and is highly recommended by veterinarians and some of America’s best trainers and riders. You will not find a product that offers a more comprehensive range of the most important nutrients to meet your horse’s individual needs and complement his daily diet.

Grand Vite is safe when fed in addition to forage, pasture, and complete feeds to enhance your horse’s diet.

## Grand Calm™

Helps to Minimize Stress... and Support Maximum Performance

Riding and preparing your horse for a casual trail ride, exercise and training, or participating in a show should be fun for you and your horse. A hard to handle, spooky, stressed out horse will quickly ruin your enjoyment and affect the outcome of your ride or performance.

Grand Calm is a unique formula consisting of a patented, pure form of Theanine shown to affect alpha brain waves that cause a relaxed but alert mental state. The only formula to combine four sources of magnesium which helps maintain calmness.

Grand Calm will help control nervousness in horses that are tense, spooky and inattentive.

All ingredients are exempt from any FEI restrictions.

- Over 6,000 mg of Magnesium
- 4 sources of Magnesium
- 1,000 mg Theanine
- 500 mg Thiamine
- 1oz serving
- Pelleted and Palatable

### Product Facts

	Per 1oz. (28.5 g) unit PELLETS	Per 32gm. unit PASTE
Theanine	1,000 mg	1,500 mg

Magnesium Carbonate	1,320 mg	1,500 mg
Magnesium Chelate	200 mg	300 mg
Organic Magnesium	50 mg	
Thiamine	500 mg	700 mg

Grand Calm Syringe Paste is a quick, easy way to provide rapid stress relief to keep your horse cool and calm.

"The results were immediate and simply amazing... Dressage has been the defining part of my life as a trainer for over 19 years. My talented, athletic 18 hand gelding, Charly was insecure and sometimes a dangerous partner under saddle when we headed to a clinic or the show ring. Frustrated and concerned to find a calming product that worked effectively and more important, was show legal, lead me to Grand Meadows Calm products. Now with increased work load and stress he remains relaxed and can focus while competing at the shows. His movements became more fluid and swinging as we move forward down the center-line with pride and confidence."

Patricia Harris  
FEI Dressage Trainer

Available in:

- 5 lb (2.27 kg).....\$46
- 10 lb (4.54 kg).....\$88
- 25 lb (11.36 kg)..\$212

## Grand Lytes™

Electrolytes Balanced to Match the Ratio of Minerals Lost in Sweat

Specifically formulated to accurately replace the ratio of minerals lost during exercise when your horse is sweating. When your horse is working hard for extended periods of time in hot conditions it is essential that electrolyte levels are replenished to avoid dehydration. Equine sweat contains high levels of electrolytes which are responsible for a multitude of critical functions in the horse. The lowering of these critical electrolytes can lead to reduced performance, heat exhaustion and a number of other potential health issues. Prior to any long ride or discipline in hot weather it is recommended to feed Grand Lytes and always have plenty of fresh water available as electrolytes will stimulate horses to drink.

### Product Facts

Per 2oz. (56.76 g) serving	
Omega 3 Fatty Acids	10,000 mg
Omega 6 Fatty Acids	2,750 mg
Lecithin	2,500 mg
Diamond V Yeast™*	150 mg
Methionine	500 mg
Lysine	437 mg
Zinc	250 mg
Leucine	100 mg
Copper	25 mg
Biotin	1 mg
Amino Acid Profile	2,518 mg

\*Supports Digestion and Boosts Immune Function

"I have a very picky eater and drinker. We compete heavily in Eventing and I want to ensure my horse gets the correct electrolyte balance for good hydration and healthy sweating - which is so important in this sport. I also feed Grand Lyte in the winter when the water is icy cold to encourage normal drinking. He had no problem polishing off all the Grand Lytes from his feed bucket. I couldn't be more pleased with this product and can definitely recommend it."

Jordan Linstedt  
International Three Day Event Rider

"These products are so wonderful, I am absolutely pain free. I had a riding mishap and severely injured my knee. I've used the Rider and the Pain Relief Lotion together for the last six months with outstanding pain free results."

**Maggie Langley**  
Double G Tack Store  
Lebanon, Maine

**Grand Flex for Riders** Even if you're still young and healthy, now is the time to "fix" joint problems before they happen. If you're already feeding one of our Grand Flex joint formulas to your horses, you recognize the importance of protecting your own long-term joint health.

#### Proven - Effective - Bioavailable

**Grand Flex for Riders** contains BioCell Collagen II™ and the same key elements that are in all of Grand Flex joint-care formulas vital to supporting healthy joint function. A recent human clinical study showed that 89.9% received pain relief at some level within forty-five days of taking BioCell Collagen II.™

**Grand Flex Pain Relief Lotion** is a potent, instant pain relieving lotion for use on your horse as well as for yourself when pain, stiffness, and inflammation are interfering with your riding enjoyment. Simply roll on the affected area, and let the MSM, Capsaicin, Turmeric, and Glucosamine bring you immediate results. Non-greasy, odorless formula with just the right consistency for application on skin and hair coat.
